OUR PLEDGE REGARDING MEDICAL INFORMATION:

We understand that medical information about you and your health is personal. We are committed to protecting medical information about you. We create a record of the care and services you receive. This record is needed to provide you with quality care and to comply with certain legal requirements. This notice applies to all of the records of your care generated by Schneck Medical Center, whether made by Schneck Medical Center personnel or your personal doctor. Your personal doctor may have different policies or notices regarding the doctor's use and disclosure of your medical information created in the doctor's office or clinic.

This notice will tell you about the ways in which we may use and disclose medical information about you. We also describe your rights and certain obligations we have regarding the use and disclosure of medical information.

We are required by law to:

- ensure that medical information identifying you is kept private
- give you this notice of our legal duties and privacy practices with respect to medical information about you
- follow the terms of our notice that are currently in effect
- notify you following a breach of your unsecured medical information

WHO THIS NOTICE APPLIES TO

- Any health care professional authorized to enter information into or consult your medical record.
- All departments and units of Schneck Medical Center.
- Any member of a volunteer group we allow to help you.
- All employees, staff and other Schneck Medical Center personnel and residents and students in training.
- Schneck Medical Center Medical Staff and its members; attending physicians; radiologists; pathologists; anesthesiologists; surgeons; internal medicine physicians; emergency department physicians; and any other physician or health care provider who provides treatment to you while you are at or in the hospital, and staff members of such physicians who work at the hospital.

All these individuals, entities, sites and locations follow the terms of this notice. In addition, these individuals, entities, sites and locations may share health information with each other for treatment, payment or operations purposes described in this notice.

HOW WE MAY USE AND DISCLOSE MEDICAL INFORMATION ABOUT YOU

The following categories describe different ways that we use and disclose medical information. We will explain and try to give some examples of each category of use or disclosure. Not every use or disclosure in every category will be listed. However, all of the ways we are permitted to use and disclose information will fall within one of these categories.

For Treatment. We may use medical information about you to provide you with medical treatment or services. We may disclose medical information about you to doctors, nurses, technicians, medical students, clinical students, or other hospital personnel who are involved in your care at Schneck Medical Center. For example, a doctor treating you for a broken leg may need to know if you have diabetes because it may slow the healing process. In addition, the doctor may need to tell the dietician if you have diabetes so that we can arrange for appropriate meals. Different departments of the Hospital may also share medical information about you in order to coordinate the things you need, such as prescriptions, lab work and X-rays. We may also disclose medical information about you to people outside the Hospital who may be involved in your medical care after you leave the Hospital, such as family members, clergy or others who provide services that are part of your care.

For Payment. We may use and disclose medical information about you so that the treatment and services you receive at the hospital may be billed to and payment collected from you, an insurance company or a third party. For example, we may need to give your health plan information about surgery you receive at the hospital so your health plan will pay us or reimburse you for the surgery. We may also tell your health plan about a treatment you are going to receive in order to obtain prior approval or determine whether your plan will cover the treatment.

For Health Care Operations. We may use and disclose medical information about you for Schneck Medical Center operational reasons. These uses and disclosures are necessary to run the Hospital and ensure that all of our patients receive quality care. For example, we may use and disclose medical information to review our treatment and services, evaluate the performance of our staff in caring for you, or to accrediting agencies that evaluate our performance. We may also combine medical information about many Hospital patients to evaluate current services, decide what additional services the Hospital should offer, and whether certain new treatments are effective. We may also disclose information to doctors, nurses, technicians, medical students, clinical students, and other Hospital personnel for review and learning purposes. We may also combine the medical information we have with medical information from other health care providers to compare how we are doing and areas for improvement in the care and services we offer. We may remove information that identifies you from this set of medical information so others can use it to study health care and health care delivery without learning who the specific patients are.

Appointment Reminders. We may use and disclose medical information to contact you as a reminder that you have an appointment for treatment or medical care.

Treatment Alternatives. We may use and disclose medical information to tell you about or recommend possible treatment options or alternatives that may be of interest to you.

Health-Related Benefits and Services. We may use and disclose medical information to tell you about health related benefits or services that may be of interest to you.

Fundraising Activities. We may disclose information to the Schneck Medical Center Foundation so that the Foundation may contact you in raising money for the Hospital. We would only release contact information, such as your name, address and phone number and the dates you receive treatment or services at the Hospital. You have the right to opt out of receiving fundraising communications. If you do not want the hospital to contact you for fundraising efforts, you must notify our Privacy Officer in writing at the address at the end of this notice.

Hospital Directory. Unless you object, we may include certain limited information about you in the hospital directory while you are a patient at the hospital. This information may include your name, location in the hospital, and your general condition (e.g., fair, stable, etc.). The directory information may be released to people who ask for you by name. You will be given the opportunity to have your clergy or religious affiliation notified of your presence in our facility. This will allow your family, friends, and clergy to visit you in the hospital and generally know how you are doing. You will have the opportunity to have your information not listed in the directory.

Individuals Involved in Your Care or Payment for Your Care. We may release medical information about you to friends and family members who are involved in your medical care. We may also give information to someone who helps pay for your care. We may also tell your family or friends your condition and that you are in the hospital. If possible, we will ask your permission prior to discussing your care with others. In addition, we may disclose medical information about you to an entity assisting in a disaster relief effort so that your family can be notified about your condition, status and location.

Research. Under certain circumstances, we may use and disclose medical information about you for research purposes. For example, a research project may involve comparing the health and recovery of all patients who receive one medication to those who receive another, for the same condition. All research projects, however, are subject to a special approval process. This process evaluates a proposed research project and its use of medical information, trying to balance the research needs with patients' need for privacy of their medical information. Before we use or disclose medical information for research, the project will have been approved through this research approval process. Medical information about you may be disclosed to people preparing to conduct a research project; for example, to help them look for patients with specific medical needs, so long as the medical information they review does not leave the hospital. We will ask for your specific permission if the researcher will have access to your name, address or other information that reveals who you are, or will be involved in your care at the hospital.

As Required By Law. We will disclose medical information about you when required to do so by federal, state or local law.

To Avert a Serious Threat to Health or Safety. We may use and disclose medical information about you when necessary to prevent a serious threat to your health and safety or the health and safety of the public or another person. Any disclosure, however, would only be to someone able to help prevent the threat.
